Appli LMS

Maximise Staff Training with
our Learning Management Software

Empower your team to learn and grow with a central online platform for compliance training courses.

Legal Island

Imagine your staff having 24/7 access to a centralised training platform, tailored to your organisation's brand and staff training needs, with unlimited users.

That's precisely what Legal Island's AppLI LMS offers, for a convenient annual fixed fee.

AppLI LMS is a Learning Management System that allows you to effortlessly streamline your company-wide training.

Full user-control

It boasts a user-friendly interface that affords HR managers complete control over user access, with the ability to upload, change, and remove users where necessary.

Maintain flexibility over staff training

Users can conveniently self-enrol onto courses, removing administrative burdens from HR departments. The platform's compatibility with mobile devices, laptops, tablets, and desktops ensures accessibility from any location, enabling staff to tailor their training schedules to fit their work commitments.

> "
> Legal Island's AppLI LMS has been a game-changer for us. Previously, we relied on multiple providers for our compliance training, which was costly and a drain on resources. AppLI LMS simplifies everything. One of the biggest advantages is the focus on Northern Ireland legislation, which was hard to find with other platforms. The range of courses is fantastic, catering to different job roles and management levels.

Streamline compliance measures

As an HR manager, it can be overwhelming to keep track of compliance training for your employees. The comprehensive reporting dashboard in AppLI LMS means you're able to keep track of and download your staff's progress, through one platform – saving you time and resources when it comes to compliance measures and record keeping.

Mitigate risk

The audit trail will strengthen your defence in any employment tribunal complaint, ultimately protecting your company's reputation in the marketplace and in the eyes of your key stakeholders and customers. Our platform guarantees top-tier data protection, fully compliant with ISO27001 standards, shielding your organisation against costly fines while supporting your protection in key compliance areas.

Access an extensive portfolio of courses for an annual fixed fee

Ensuring your staff understand their duties and responsibilities in compliance with the law is key for all organisations.

AppLI LMS comes as standard with an extensive portfolio of over 25 jurisdiction-specific courses for an annual fixed fee. If you're seeking a more tailored approach, smaller packages are available to suit your training needs.

Enjoy unlimited user access to our extensive catalogue, supplemented by the option to integrate your own training materials, policies and procedures effortlessly. Plus, receive dedicated support from our local team and a committed account manager to ensure a seamless learning experience.

Cost-effective training

AppLI LMS offers a cost-effective solution for comprehensive staff training in compliance, wellbeing, and management-specific courses. With no setup, admin fees, or hidden costs, it also eliminates the financial burden of traditional in-person training sessions.
